Peace of Mind for Your Project.

**Printing.
Mounting.
Logistics.**

A team that understands business

We believe large-format printing is more than a print on a material – it's your brand's calling card, and it keeps your business calm. That's why, for years, we've combined POS display production (Point of Sale) with professional mounting of in-store graphics and logistics across Poland.

How we work – and what you get:

You launch your
campaign without delays

You stay in control of the
project (no fire-fighting)

Your budget doesn't leak
through reworks and
last-minute surprises

You keep the strategy,
we handle the logistics

dot media One partner, zero chaos. Peace of Mind for Your Project.

Printing.

Experience in the industries
that build reputations

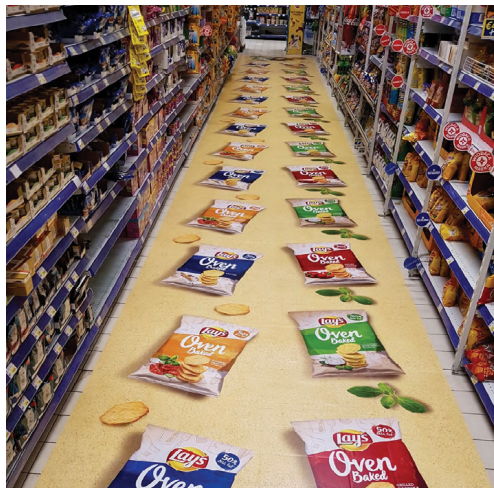

For 20 years, we've printed for agencies working with the biggest names in retail, FMCG and finance. We know every pixel matters – for your reputation, and for the brand you're representing. So yeah, we treat every project a bit like a mission. As standard, we offer 9-colour printing with 98% coverage of the PANTONE palette, plus advanced equipment (Canon, Epson, HP Latex, Zund). But the most important bit? At every stage, there's someone on our side keeping an eye on quality.

Why agencies trust us with printing:

- **We catch mistakes before they hit print:** we check every file before production. You save budget, and we deliver quality that won't mess with anyone's reputation
- **Experience in your sector:** we know the realities of retail, FMCG and finance – what sells, what prints well, and where the traps are
- **Fast quote, fast response:** a standard offer in 30 minutes, and real answers instead of email ping-pong

Want to see our quality on your own materials? Let's talk – no obligations.

Mounting.

The scale and experience
that give you peace of mind

Picture 380 metro carriages with updated signage in a few days. Or window graphics across 250 opticians' stores in 6 days – from design, through production, to mounting. We are a nationwide network of 50+ proven installation teams across Poland, capable of running dozens of locations simultaneously – from bank window branding to complex large-format projects, such as Unilever's office (2,000m² of wallpapers). And even at that scale, your project is under the full control of our project manager.

Window Branding:
407 bank branches
completed in 8 days

Warsaw Metro:
380 carriage and 21
stations rebranded

Wall Graphics:
2,000m² for the Unilever office

Retail campaign:
111 store displays in 29h

POS Materials Production

Decorative Glass Films
for the Lionbridge office

Delivery Vehicle Wrapping

Floor Stickers
for retail chains

Why agencies trust us with mounting:

- **POSM handled A to Z:** we take the whole process – from production, through finishing and transport, right through to mounting and a photo report
- **Deadline security:** thanks to our scale, we shorten delivery times – e.g. from 3 weeks to 8 days when replacing window graphics across chains
- **Less load on your team:** we manage crews and logistics, so you've got time for creative work and the certainty everything lands on time

See how effective we are – printing, mounting, logistics means peace of mind for your project.

Logistics.

Coordinated scale –
chaos turned into a plan

From custom packing to distribution across hundreds of sites at once – it's all organised. Promotional stands for a discount chain reached 111 stores in just 29 hours with full merchandising support, and we delivered UPC window-wrapping campaigns on a repeat basis for over 6 years. Not a one-off. Just how we work.

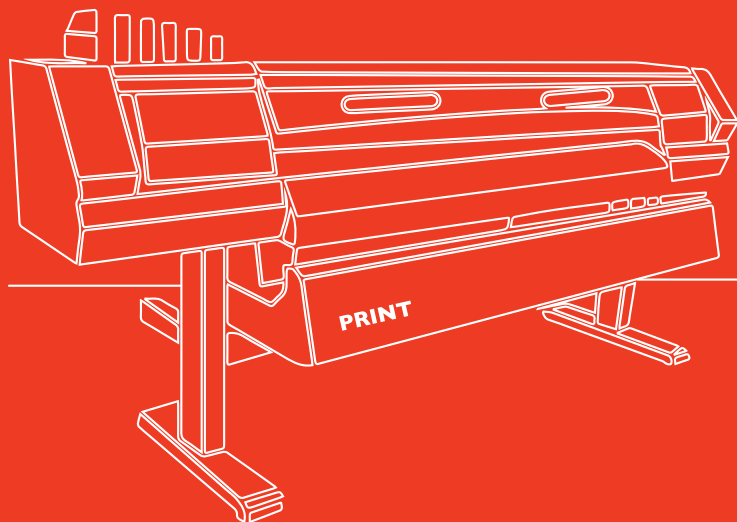

Why agencies outsource POSM logistics to us:

- **We coordinate it for you:** one parcel, hundreds of locations – you focus on the creative, and we keep deliveries and mounting under control from A to Z
- **Last-minute changes, no surprises:** dates change, addresses change, quantities change – we'll tell you the costs before we do anything, with no hidden fees and no extra invoices
- **Budget and timeline under control:** from packing to delivery and mounting, all costs are agreed clearly before we start, and you get the stages and dates mapped out from day one

Hand your POS logistics to us – you focus on strategy, we'll make sure the details actually get delivered.
